weinor Design Studio

Vom Besonderen das Exklusive |

Bislang gab es Unis, Block- und Fantasie-streifen. Nun hat das weinor Design Studio die Exklusiv-Kollektion **my lines** erschaffen – und damit ein komplett neues Tuchbild. Mit dieser Innovation, die auf einer eingehenden Analyse aktueller Wohn- und Designtrends beruht, knüpft das erfahrene Kreativteam an frühere Erfolge an. Die zwölf exklusiv bei weinor erhältlichen Dessins verbreiten individuelle moderne Wohnlichkeit auf Ihrer Terrasse. Erhältlich sind sie in einer Fülle von angesagten Grau- und Beigetönen sowie trendstarken Farben mit sonnigem Kolorit. Auch an der ersten nachhaltigen Kollektion modern basics blue® war das Design-team federführend beteiligt.

Exclusief en speciaal | Tot nog toe

waren er effen stoffen, blok- en fantasiestrepen. Nu heeft de weinor Design Studio de exclusievecollectie **my lines** gecreëerd – en hiermee een volledig nieuwe doekuitstraling. Met deze innovatie, die berust op een diepgaande analyse van de huidige woon- en design-trends, zet het ervaren creatieve team eerdere successen voort. De twaalf exclusieve dessins van weinor zorgen voor een individuele moderne huiselijke sfeer op uw terras. Ze zijn verkrijgbaar in een overvloed van modieuze grijs- en beigetinten, alsmede trendy kleuren met veel charme. Ook bij het ontwerp van de eerste duurzame collectie modern basics blue® speelde het designteam een toonaangevende rol.

Something exclusive from something special |

To-date, we had single-colour, block and fantasy stripes. Now, the weinor Design Studio has created the exclusive **my lines** collection – and with it a completely new fabric appearance. With this innovation, which is based on a detailed analysis of current living and design trends, the experienced creative team ties in with former success stories. The twelve patterns exclusively available from weinor radiate individual, modern homeliness on your patio. They are available in an abundance of trendy grey and beige shades as well as trendsetting colours with a sunny atmosphere. The design team also masterminded the first sustainable modern basics blue® collection.

Le summum de l'exception | Jusqu'à

présent, il y avait les unis, les rayures blocs ou fantaisies. weinor Design Studio vient de créer la collection exclusive **my lines** et avec elle une toile totalement nouvelle. Avec cette innovation, basée sur une analyse approfondie des tendances actuelles en matière d'habitation et de design, l'équipe de créateurs chevronnés renoue avec le succès. Les douze motifs disponibles en exclusivité chez weinor confèrent à votre terrasse un confort individuel et moderne. Ces toiles sont disponibles dans une multitude de tons gris et beige tendance, ainsi que dans des couleurs lumineuses et tout aussi en vogue. La première collection durable modern basics blue® a également vu le jour sous la houlette de l'équipe de conception.

Wunderschön und kompromisslos gut

Prachtig en compromissloos goed
Beautiful and uncompromisingly good
Très belle et de parfaite qualité

Gemacht für modernes Outdoor-Living | Glauben Sie nicht, nur weil es Recycling ist, wären wir Kompromisse eingegangen! Die dauerhaften Markisentücher von modern basics blue® sind technisch State of the Art und perfekt für die hohen Ansprüche eines zeitgemäßen Lebens auf der Terrasse. Bei den Markisentüchern aus der Kooperation von weinor Design Studio und Parà handelt es sich um eine moderne Interpretation klassischer Dessins. Elegante Grautöne treten in Dialog mit leuchtenden Sommerfarben, zeitlose Fantasie-Dessins erhalten einen frischen Auftritt. Wer Wert auf modernes Wohnen legt, findet hier sein Traumtuch.

Gemaakt voor moderne Outdoor Living | Dat het recycling betreft, betekent niet dat we compromissen hebben gesloten! De duurzame zonweringdoeken van modern basics blue® zijn technisch State of the Art en perfect voor de hoge eisen die worden gesteld aan een eigentijds buitenleven. Bij de zonweringdoeken die uit de samenwerking tussen de weinor Design Studio en Parà zijn ontstaan, gaat het om een moderne interpretatie van klassieke dessins. Elegante grijstinten gaan de dialoog aan met stralende zomerkleuren, en tijdloze fantasiedessins krijgen een frisse uitstraling. Wie belang hecht aan modern wonen, vindt hier zijn droomdoek.

Made for contemporary outdoor living | Don't believe that we have made any compromises just because it is recycled! The durable modern basics blue® awning fabrics are technically State of the Art and perfect for the high demands of modern-day life on the patio. The awning fabrics from the weinor Design Studio and Parà are a modern interpretation of classical patterns. Elegant shades of grey interact with bright summer colours, timeless fantasy patterns are presented afresh. If you value modern living, you will find your dream fabric here.

Faite pour la vie moderne à l'extérieur | Ne croyez pas que recyclage soit synonyme de compromis ! Basées sur une technologie de pointe, les toiles écoresponsables de la collection modern basics blue® répondent parfaitement aux exigences en matière de terrasses modernes. Les toiles de stores issues de la coopération entre weinor Design Studio et Parà réinterprètent des motifs classiques. L'élégance des tons gris dialogue avec la vivacité des couleurs estivales, des motifs fantaisies indémodables sont revisités. Si vous aimez vivre dans un cadre moderne, vous trouverez ici la toile de vos rêves.

Die erste nachhaltige Markisentuchkollektion | „Wir können das und wir machen das“ war der Vorsatz von weinor. So wurde in Kompetenzpartnerschaft mit Parà, dem italienischen Produzenten von Outdoor-Geweben, modern basics blue® entwickelt. Dabei handelt es sich um die weltweit erste nachhaltige Tuchkollektion, deren Sonnenschutzgewebe Tempotest® Starlight® blue mit 85 % Recycling-PET nach Global Recycled Standard (GRS) zertifiziert ist. Die Einstiegskollektion aus dem Jahr 2021 wurde allein mit sieben renommierten Awards ausgezeichnet. Nach dem großen Erfolg der innovativen Kollektion haben wir diese nun auf 28 zeitgemäße Dessins erweitert.

De eerste duurzame collectie zonweringdoeken | „Wij kunnen dat en doen het ook“ was de insteek van weinor. Zo werd in competentiepartnerschap met Parà, de Italiaanse producent van outdoor-weefsels, modern basics blue® ontwikkeld. Hierbij gaat het om de wereldwijd eerste duurzame doekcollectie, waarvan het zonwerende weefsel Tempotest® Starlight® blue met 85% gerecycled PET gecertificeerd is volgens de Global Recycled Standard (GRS). Alleen al de instapcollectie uit het jaar 2021 werd met zeven gerenommeerde awards onderscheiden. Na het grote succes van de innovatieve collectie hebben wij deze nu uitgebreid tot 28 eigentijdse dessins.

The first sustainable awning fabric collection | “We are capable of doing it and do it”, was weinor’s intention. Thus, modern basics blue® was developed in competence partnership with Parà, the Italian producer of outdoor woven fabrics. This is the first sustainable fabric collection of its kind worldwide with sun protection fabric Tempotest® Starlight® blue using 85% recycled PET certified according to the Global Recycled Standard (GRS). The initial collection from 2021 alone was accoladed with seven renowned awards. Following the success of the innovative collection, we have now extended it to 28 contemporary patterns.

La première collection de toiles de stores écoresponsable | « Nous pouvons le faire et nous le faisons ». Ces mots résumant l’intention de weinor. C’est ainsi que modern basics blue® a été conçue, en partenariat avec Parà, le fabricant italien de tissus d’extérieur. Il s’agit de la première collection de toiles écoresponsable au monde dont le tissu de protection solaire Tempotest® Starlight® blue, fabriqué avec 85 % de PET recyclé, est certifié Global Recycled Standard (GRS). La première collection sortie en 2021 a reçu à elle seule sept prix prestigieux. Après l’énorme succès de cette collection innovante, nous proposons désormais 28 motifs modernes.

Brillante Farbe, die bleibt

Aanhoudend stralende kleur

Lasting bright colours

Des couleurs éclatantes pour longtemps

Bei weinor ist die Faser nicht nur oberflächlich, sondern immer vollständig gefärbt (wie bei einer Karotte).

The fabric yarn from weinor is always fully dyed (like a carrot).

Bij weinor is de vezel niet alleen oppervlakkig, maar altijd tot in de kern geveerd (net als bij een wortel).

Chez weinor, la fibre n'est pas teinte qu'en surface, mais entièrement (comme la carotte).

Ressourcenschonende Spindüsenfärbung

| Die Produktion von farbechten weinor Tüchern verbraucht 90 % weniger Wasser als eine herkömmliche Färbung. Der Grund: Bei der Spindüsenfärbung wird das geschmolzene Material mit Farbpigment versetzt und durch Spindüsen zu Fasern gepresst, aus denen dann das Garn gefertigt wird. Anders als bei herkömmlichen Prozessen, wo die Oberfläche von fertigem Garn oder Gewebe mit viel Wassereinsatz gefärbt wird, entsteht so ein Garn mit Farbe durch und durch. Das Tuch bleibt dauerhaft farbrillant.

Besparing van hulpbronnen door spinbadverven

| De productie van kleurechte weinor doeken verbruikt 90% minder water dan traditionele verfprocessen. Reden: Bij spinbadverven wordt het gesmolten materiaal voorzien van kleurpigment en door spindoppen tot vezels geperst, waarvan dan het garen wordt gesponnen. Anders dan bij conventionele processen, waar het oppervlak van het afgewerkte garen of weefsel wordt geveerd, ontstaat zo een door en door gekleurd garen. Het doek blijft langdurig stralend van kleur.

Resource-saving solution dyeing

| The production of colour-fast weinor fabrics uses 90% less water than traditional dyeing methods. Why? For solution dyeing, the molten material is mixed with colour pigments and pressed as fibres using spinnerets, from which the yarn is then produced. Unlike conventional processes, where the surface of finished yarn or woven fabric is dyed using large amounts of water, the result is a yarn with consistent colour throughout. The fabric maintains long-lasting brilliance.

La teinture dans la masse préserve les ressources

| La fabrication des toiles grand teint weinor consomme 90 % d'eau en moins qu'un procédé de teinture traditionnel. La raison : dans la teinture dans la masse, le matériau fondu est mélangé à des pigments colorés, puis pressé à travers des filières pour obtenir des fibres qui permettent ensuite de fabriquer le fil. Contrairement aux procédés traditionnels, dans lesquels la surface du fil ou du tissu est teinte à grande eau, cette technique permet d'obtenir un fil entièrement coloré. Les couleurs de la toile conservent durablement leur éclat.

Qualität hat bei uns Tradition |

Produkte von weinor sind seit jeher auf eine lange Lebensdauer ausgelegt. Ein Beispiel gefällt? Der weinor LongLife-Arm verfügt über ein High-Tech-Band, das auf 100.000 Zyklen getestet ist.

Auch bei unseren Tüchern steht dauerhafter Nutzen im Vordergrund. Zugleich ist eine Entscheidung für besondere Qualität immer auch eine Entscheidung für mehr Nachhaltigkeit. Denn was nach langen Jahren anspruchsvollem Einsatz immer noch rundum schön und funktionsfähig ist, muss nicht ausgetauscht werden und spart somit wertvolle Ressourcen. Qualität, die sich auszahlt: für Ihr Budget – und für unsere Umwelt.

Een traditie van kwaliteit |

Producten van weinor zijn al van oudsher ontworpen voor een lange levensduur. Wilt u een voorbeeld? De weinor LongLife arm beschikt over een hightech band, die op 100.000 cycli getest is.

Ook bij onze doeken staat langdurig gebruik voorop. Tegelijkertijd is onze keuze voor bijzondere kwaliteit ook altijd een keuze voor meer duurzaamheid. Want iets dat na jarenlang intensief gebruik nog altijd mooi en functioneel is, hoeft niet te worden vervangen en bespaart daarmee waardevolle hulpbronnen. Kwaliteit die loont: voor uw budget – en voor ons milieu.

Quality is tradition at weinor |

Products from weinor have always been designed for a long operating life. Would you like an example? The weinor LongLife arm features a high-tech belt which is tested for 100,000 cycles.

Long-lasting benefits are also focused for our fabrics. At the same time, a decision in favour of first-class quality is also always a decision for more sustainability. Because what is still attractive and functional in all respects need not be replaced and therefore goes easy on valuable resources. Quality which pays off: for your budget – and for our environment.

La qualité est de tradition chez nous |

Les produits weinor ont toujours été conçus pour durer. Vous voulez un exemple ? Le bras LongLife de weinor est équipé d'une bande haute technologie testée sur 100 000 cycles.

Pour nos toiles aussi, la durabilité est une priorité. Choisir un certain niveau de qualité, c'est aussi toujours choisir une gestion plus durable de nos ressources. En effet, les produits qui restent beaux et fonctionnent encore parfaitement après des années d'utilisation intensive n'ont pas besoin d'être remplacés et préservent ainsi nos précieuses ressources. Une qualité qui porte ses fruits : pour votre budget et pour l'environnement.

Falten sorgen für Charakter | Auch bei Ihrem Markisentuch. Wabenbildung, Knick- oder andere Falten lassen sich selbst beim besten Tuch nicht komplett ausschließen. Da sie aber keinen Einfluss auf die Qualität haben, stellen sie keinen Reklamationsgrund dar. *Mehr erfahren: www.weinor.de/tuch-und-co/tucheigenschaften*

Pflege bewahrt die Schönheit | Für die Reinigung eines weinor Markisentuchs eignet sich am besten eine 5-10%ige Lösung aus Feinwaschmittel und lauwarmem Wasser (max. 40 °C). Einfach mit einem Schwamm aufbringen, einwirken lassen und mit viel Wasser abspülen. *Mehr erfahren: www.weinor.de/tuch-und-co/tuchpflege*

Vouwen zorgen voor karakter | Ook bij uw zonweringdoek. Raatvorming, knik- of andere vouwen kunnen zelfs bij het beste doek niet compleet worden uitgesloten. Aangezien ze de kwaliteit echter niet beïnvloeden, vormen ze geen reden voor reclamatie. *Meer informatie: www.weinor.nl/doek-en-co/doekeigenschappen*

Onderhoud voor blævende schoonheid | Voor de reiniging van een weinor zonweringdoek is een 5 tot 10% oplossing van fijnwasmiddel en lauwarm water (max. 40 °C) het meest geschikt. Gewoon met een spons aanbrengen, laten intrekken en afspoelen met veel water. *Meer informatie: www.weinor.nl/doek-en-co/doekonderhoud*

Creases provide character | Also for your awning fabric. Honeycombing, creasing or other folds cannot even be excluded for the best of fabrics. However, as they have no impact on the quality, functionality or performance they are not a reason for complaint or rejection. *Find out more: www.weinor.com/fabric-and-co/fabric_properties*

Care keeps things attractive | To clean a weinor awning fabric, a 5-10% solution consisting of a mild detergent and lukewarm water (max. 40 °C) is best suited. Simply apply with a sponge, let it take effect and rinse it off generously with water. *Find out more: www.weinor.com/fabric-and-co/fabric_care*

Le temps qui passe laisse des traces | Aussi sur votre toile de store. Même la meilleure toile finit par avoir des alvéoles ou des plis. Etant donné qu'ils n'ont aucune influence sur la qualité, ils ne peuvent faire l'objet d'aucune réclamation. *En savoir plus : www.weinor.fr/toile-et-co/proprietes-de-toiles*

L'entretien préserve la beauté | Pour nettoyer une toile de store weinor, le mieux est d'utiliser une solution d'env. 5-10 % de lessive pour linge délicat et d'eau tiède (max. 40 °C). Il suffit de l'appliquer avec une éponge, de laisser agir et de rincer abondamment à l'eau claire. *En savoir plus : www.weinor.fr/toile-et-co/entretien-de-toiles*
